AJAX

HTML5 - CSS

EJS

JavaScript

I am seeking opportunities to join a company which provides the chance to improve my skills to learn and grow along with the organisation goals. I always try to solve real time problem with my technical skills. Looking for an entry-level position in the field of Information Technology, in a company whose values and goals are in conjunction with my own value and skill set. I wish to contribute to a dynamic team of individuals motivated to achieve the company's goal while aiding my personal growth.
